WE'RE PROUD TO BE GEEKS.

When we first opened our doors, we knew that we wanted to make Louisville Geek a place that would attract innovative and creative minds by nurturing an atmosphere that makes them feel right at home. Reliable, passionate people are the lifeblood of Louisville Geek. Our team has quickly grown to include a diverse range of roles and specialties, but we come together to achieve exceptional results, not only for our clients, but for ourselves as well. That's because we love what we do and we're proud to be able to show this through repeated appearances as one of **Louisville's Best Places to Work**.

AS OUR CLIENTS GROW, WE GROW. IT'S THAT SIMPLE.

We view our relationships with our customers as a partnership. The shiny new toy syndrome is alive and well in our industry, but rather than advise our clients to invest in trending technologies that are undeniably impressive but drain the budget, we offer practical solutions that address your critical needs. We don't sell our clients anything we wouldn't use ourselves.

WE'RE PROUD TO CALL THEM OUR PARTNERS

Our vendor partnerships allow us to provide our clients with the highest quality of goods and services at the most advantageous pricing.

BENEFITS OF WORKING WITH US

With Louisville Geek, you'll work with a team of experienced, local IT professionals that know your community and understand the unique needs of your business.

By leveraging our help desk, you will receive timely assistance for any issues that arise. We resolve problems quickly, providing personal attention and giving you answers to questions that make you more productive. We work on-site or remotely as needed to resolve the issue immediately.

If you're looking for an MSP, or additional support for your existing IT team, we can work together to develop the ideal plan for your business strategy.

ON-DEMAND & MANAGED IT SERVICES FOR LOUISVILLE BUSINESSES

Our IT services are designed to accommodate the unique needs of each business that we partner with. Our flat-rate managed service plans ensure you get the services you need in a plan that fit within your budget and minimizes your business risks.
